FN Agenda 2030 afkodet: Det er en plan for at indføre globalt slaveri for menneskeheden under store koncerners støvle.

Fredag den 4. september 2015
af Mike Adams, the Health Ranger

(NaturalNews) I denne uge offentliggjorde Michael Snyder en vigtig artikel med titlen Agenda 2030: Denne måned lancerer FN en plan for en Ny Verdens Orden med hjælp fra paven.

Denne artikel henviser til dette FN Agenda 2030 dokument, der fremmer en plan for såkaldt "bæredygtig udvikling" rundt om i verden.

Dette dokument beskriver intet mindre end en **global regeringsovertagelse af enhver nation over hele planeten**. "Målene" i dette dokument er intet andet end kodeord for en fascistisk dagsorden for virksomhedsregering, der vil fængsle menneskeheden i en ødelæggende cyklus af fattigdom og samtidig berige verdens mest magtfulde globalistiske virksomheder som Monsanto og DuPont.

Af hensyn til at hjælpe med at vække menneskeheden, har jeg besluttet at **oversætte de 17 punkter i denne Agenda 2030**, så læsere overalt kan forstå, hvad dette dokument virkelig kræver. For at udføre denne oversættelse er du nødt til at forstå, hvordan globalister skjuler deres monopolistiske dagsordener med "feel good" sprog.

Her er den punktvisse oversættelse. Bemærk nøje, at **dette dokument intetsteds siger, at "opnåelse af menneskelig frihed" er et af dets mål**. Det forklarer heller ikke, HVORDAN disse mål skal nås. Som du vil se her, skal hvert eneste punkt i denne FN-dagsorden opnås gennem **centraliseret regeringskontrol og totalitære mandater**, der ligner kommunisme.

Oversættelse af FN's Agenda 2030 plan for global (verdensomfattende) regering. (kontrolleret af koncern interesser)

Mål 1) Gøre ende på fattigdom i alle dens former overalt

Oversættelse: Sæt alle på regerings velfærd, madstempler, boligtilskud og uddelinger (almisser), der gør dem til lydige slaver for den globale regering. Tillad aldrig mennesker opadgående mobilitet for at hjælpe sig selv. I stedet undervis i masseforfølgelse og lydighed til en regering, der sørger for månedlig "understøttelse" til basale ting som mad og medicin. Mærk det som "gøre ende på fattigdom"

Mål 2) Gøre ende på sult, opnå fødevarerikkerhed og forbedret ernæring og fremme bæredygtigt landbrug

Oversættelse: Oversvøm hele planeten med GMO og Monsanto patenterede frø, mens brugen af dødbringende herbicider øges under den falske påstand om "øget produktion" af madafgrøder. Manipulation af genetisk modificerede planter for at øge specifikke vitaminkemikalier uden samtidig at have nogen idé om de langsigtede konsekvenser af genetisk forurening eller genetiske eksperimenter udført åbent på tværs af arter i et skrøbeligt økosystem.

Mål 3) Sikre et sundt liv og fremme trivsel for alle i alle aldre

Oversættelse: Pålægge 100+ vacciner til alle børn og voksne under tvang, true forældre med anholdelse og fængsel, hvis de nægter at samarbejde. Pres kraftig medicinbrug på børn og teenagere, mens "screening" programmer rulles ud. Kald massemedicinering for "forebyggelses" programmer og hævde, at de forbedrer borgernes sundhed.

Mål 4) Sikre inkluderende og retfærdig kvalitetsuddannelse og frem livslange læringsmuligheder for alle

Oversættelse: Fremskynd en falsk historie og en udvandende (niveausænkende) uddannelse under "Common Core" uddannelsesstandarder, der producerer lydige arbejdere snarere end uafhængige tænkere. Lad aldrig folk lære ægte historie, ellers indser de måske, at de ikke vil gentage det.

Mål 5) Opnå lighed mellem kønnene og styrk (empower) alle kvinder og piger

Oversættelse: Kriminalisere Kristendom, marginalisere heteroseksualitet, dæmonisere mænd og fremme LGBT-dagsordenen overalt. Det egentlige mål er aldrig "ligestilling" (lighed), men snarere marginalisering og udskamning af enhver, der udtrykker nogle mandlige karaktertræk overhovedet. Det ultimative mål er at feminisere samfundet, skabe bred accept af "blid lydighed" sammen med de selvsvækkende ideer om fælles ejendom og "dele" alt. Fordi kun maskulin energi har styrken til at rejse sig mod undertrykkelse og kæmpe for menneskerettigheder, er undertrykkelse af den maskuline energi nøglen til at holde befolkningen i en tilstand af evig indvilligelse (samtykke).

Mål 6) Sikre tilgængelighed og bæredygtig forvaltning af vand og sanitet for alle

Oversættelse: Tillad magtfulde koncerner (virksomheder) at tage kontrol over verdens vandforsyning og opkræve monopolpriser for at "opbygge ny vandforsyningsinfrastruktur", der "sikrer tilgængelighed."

Mål 7) Sikre adgang til overkommelig, pålidelig, bæredygtig og moderne energi for alle

Oversættelse: Straf kul, gas og olie, og samtidig fremskynde dødsdømte "grønne" energisubsidier til hjernedøde nystartede virksomheder ledet af venner i Det Hvide Hus, som alle går konkurs indenfor fem år eller mindre. De grønne nystartede virksomheder skaber imponerende taler og mediedækning, men fordi disse virksomheder ledes af korrupte idioter snarere end dygtige iværksættere, går de altid konkurs. (Og medierne håber, at du ikke kan huske al fanfaren omkring deres oprindelige lancering.)

Mål 8) Fremme vedvarende, inklusiv og bæredygtig økonomisk vækst, fuld og produktiv beskæftigelse og anstændigt arbejde til alle

Oversættelse: Reguler små virksomheder ud af eksistens med regeringsbemyndiget minimumsløn, der ruinerer hele sektorer i økonomien. Tving arbejdsgivere til at imødekomme ansættelseskvoter for LGBT arbejdere, mens de pålægges løntrin under en centralt planlagt arbejdsøkonomi dikteret af regeringen. Ødelæg den frie markedsøkonomi og nægt tilladelser og licenser til de virksomheder, der ikke adlyder regeringsdiktater.

Mål 9) Byg elastisk infrastruktur, fremme inklusiv og bæredygtig industrialisering og fremme innovation

Oversættelse: Sæt nationer i ekstrem gæld hos Verdensbanken, bruge gældspenge til at ansætte korrupte amerikanske virksomheder til at opbygge store infrastrukturprojekter, der fanger udviklingslande i en endeløs gældsspiral. Se bogen "Confessions of an Economic Hit Man" af John Perkins for at forstå detaljerne i, hvordan denne ordning er blevet gentaget utallige gange i løbet af de sidste flere årtier.

Mål 10) Reducer ulighed i og mellem lande

Oversættelse: Straffe de rige, iværksættere og innovatører, konfisker næsten alle gevinster fra dem, der vælger at arbejde og udmærke sig. Omfordel den konfiskerede rigdom til masserne af ikke-arbejdende menneskelige parasitter, der lever af en produktiv økonomi, mens de ikke bidrager til noget ... alt imens der skrives om "lighed!"

Mål 11) Gør byer og menneskelige bosættelser inkluderende, sikre, modstandsdygtige og bæredygtige

Oversættelse: Forbyd al våbenbesiddelse fra private borgere og koncentrer våben i hænderne på lydige regeringshåndhævere, der hersker over en ubevæbnet, slavebundet klasse af fattige arbejdere. Kriminalisere at bo i de fleste landdistrikter ved at indføre "beskyttede områder" i "Hunger Games" stil, som regeringen vil hævde, ejes af "folket", selvom ingen mennesker har lov til at bo der. Tving alle mennesker ind i tæt pakkede, tæt kontrollerede byer, hvor de er under 24/7 overvågning og udsat for let manipulation af regeringen.

Mål 12) Sikre bæredygtige forbrugs- og produktionsmønstre

Oversættelse: Begynd at opkræve straffeafgifter på forbruget af fossile brændstoffer og elektricitet, hvilket tvinger folk til at leve under betingelser med en forværret levestandard, der i stigende grad ligner den tredje verdens forhold. Brug social indflydelseskampagner i tv, film og sociale medier for at udskamme folk, der bruger benzin, vand eller elektricitet, og etablere en social konstruktion af tåber og stikkere, der sladrer om deres naboer i bytte for madkreditbelønninger.

Mål 13) Tag presserende handling til at bekæmpe klimaforandringer og dens virkninger

Oversættelse: Angiv kvoterne for energiforbrug for hvert menneske, og start med at straffe eller endda kriminalisere "livsstilsbeslutninger", der overskrider energiforbrugsgrænser, der er fastsat af regeringer. Indfør total overvågning af enkeltpersoner for at spore og beregne deres energiforbrug. Sanktionér privat ejerskab af køretøj og tving masserne til offentlig transport, hvor TSA (Transport Sikkerheds Administration) knoldesparkere og ansigtsgenkendelseskameraer kan overvåge og registrere bevægelsen for enhver person i samfundet, som en scene revet lige ud af filmen "Minority Report".

Mål 14) Bevar og brug havene bæredygtigt, søer og havressourcer til bæredygtig udvikling

Oversættelse: Forbyd det meste havfiskeri, kaste fødevarerforsyningen ind i en ekstrem mangel og forårsage løbende inflation i fødevarerpriser, der sætter endnu flere mennesker i økonomisk desperation. Kriminalisere driften af private fiskefartøjer og placere al havfiskeri under kontrol af regeringens centrale planlægning. Tillad kun foretrukne virksomheder at udføre havfiskeri (og baser denne beslutning udelukkende på hvilke virksomheder, der giver flest kampagnebidrag til korrupte lovgivere).

Mål 15) Beskyt, genopret og fremme bæredygtig brug af jordiske økosystemer, bæredygtig styring af skove, bekæmp ørkendannelse og stands og vende jordforringelse og stands tab af biodiversitet

Oversættelse: Udrul Agenda 21 og tving mennesker fra landet og ind i kontrollerede byer. Kriminaliser privat ejerskab af jord, herunder gårde og landbrugsområder. Tæt kontrol af al landbrug gennem et virksomhedskorruperet regeringsbureaukrati, hvis politikker næsten udelukkende bestemmes af Monsanto, mens den bliver gummitemplet af USDA. Forbyd brændeovne, opsamling af regnvand og havearbejde i hjemmet for at kriminalisere selvhjulpethed og tvinge total afhængighed af regeringen.

Mål 16) Fremme fredelige og inkluderende samfund for bæredygtig udvikling, give adgang til retssystem for alle og opbygge effektive, ansvarlige og inkluderende institutioner på alle niveauer

Oversættelse: Giv juridisk immunitet til ulovlige udlændinge og "beskyttede" mindretalsgrupper, som vil være fri til at deltage i enhver ulovlig aktivitet - herunder åben opfordring til masse mord på politibetjente - fordi de er den nye *beskyttede klasse* i samfundet. "Inkluderende institutioner" betyder tildeling af gunstige skattestrukturer og offentlige tilskud til virksomheder, der ansætter LGBT arbejdere, eller hvilke grupper der i øjeblikket er til fordel for de centrale planlæggere. Brug IRS (SKAT) og andre føderale agenturer til selektivt at straffe ugunstige grupper med strafferevision og regulatorisk chikane, alt imens ignorering af de kriminelle aktiviteter fra begunstigede virksomheder, der er venner af den politiske elite.

Mål 17) Styrk implementeringsmidlerne og genopliv det globale partnerskab for bæredygtig udvikling

Oversættelse: Vedtage globale handelsmandater, der tilsidesætter nationale love, samtidig med at der gives ubegrænset imperialisme til virksomheder som Monsanto, Dow Chemical, RJ Reynolds, Coca-Cola og Merck. Vedtag globale handelspagter, der omgår en nations lovgivere og tilsidesætter love om intellektuel ejendomsret for at sikre, at verdens mest magtfulde virksomheder opretholder totale monopoler over lægemidler, frø, kemikalier og teknologi. Ophæve nationale love og kræve total global lydighed over for handelsaftaler, der er udstedt af magtfulde virksomheder og gummitemplet af FN.

Total slavebinding af planeten inden 2030

Som FN-dokumentet siger, "Vi forpligter os til at arbejde utrætteligt for den fulde gennemførelse af denne dagsorden inden 2030."

Hvis du læser hele dokumentet og kan læse ud over det overfladiske og PR-sætninger, vil du hurtigt indse, at **denne FN-dagsorden vil blive tvunget over for alle verdens borgere gennem påkaldelse af regerings tvang**. Ingen steder angiver dette dokument, at individets rettigheder vil blive beskyttet. Det anerkender heller ikke engang eksistensen af menneskerettigheder, som Skaberen giver enkeltpersoner. Selv den såkaldte "universelle erklæring om menneskerettigheder" nægter fuldstændigt enkeltpersoner retten til selvforsvar, retten til medicinsk valg og retten til forældrekontrol over deres egne børn.

FN planlægger intet mindre end et **globalt regeringstyranni**, der slavebinder hele menneskeheden, mens den kalder ordningen "bæredygtig udvikling" og "lighed".

1984 er endelig ankommet. Og selvfølgelig rulles det hele ud under den bedrageriske (svigagtige) etiket "fremskridt".

SUSTAINABLE AGENDA:

The key is total monitoring, total measuring and total rationing of everything; all energy, food, water, housing, transportation, education, land use, medical care, right to travel, and the monitoring of everything you say and do.

These U.N. policies are transforming and reconfiguring global society under the false science that humans have caused Global Warming and that critical climate action must be taken to reduce greenhouse gas and CO₂ emissions, immediately.

The U.N. Agenda 21 / ICLEI calls for CO₂ emission reduction by 2020 to 1990 levels and reduced another 80% by 2050

Er CO2 årsagen til global opvarmning? Er CO2 den største faktor i drivhusgasserne?

CO₂—DESIGNER
POLLUTANT

For a number of reasons, carbon dioxide is one of the most important gases on earth and is necessary for the survival of all life on this planet. People need to ask why CO₂, which is essential to plant life and by its production of oxygen to all life, became demonized as a pollutant that has to be drastically reduced. The IPCC claims it is at record levels when, at 396 ppmv, it is the lowest in 300 million years. If that level is reduced, plants do not grow as much and when the level reaches 150 ppmv, most plants are dead. To illustrate the contradictions in the urge to reduce levels, commercial greenhouses pump in extra CO₂ to raise levels to 1200 ppmv that increase yield by a factor of four.

Two terms thrown around that few understand are “The Greenhouse Effect” and “Global Warming.” They are linked for political effectiveness because people associate a greenhouse with high temperatures. In fact, the Earth’s atmosphere doesn’t work like a greenhouse. The objective of the UN agency the

Intergovernmental Panel on Climate Change (IPCC) was to isolate and demonize CO₂. It began when they were told to examine only human causes of global warming. There are three so-called greenhouse gases, water vapour is 95 percent by volume, CO₂ is 4 percent, and methane 0.36 percent. The IPCC immediately eliminated water vapour as they explained. “Water vapour is the most abundant and important greenhouse gas in the atmosphere. However, human activities have only a small direct influence on the amount of atmospheric water vapour.” So the claim is human produced CO₂ is the effectively the cause of all temperature increase since 1950. The human portion of CO₂ in the atmosphere is 3.4 percent or 0.00272% of the total atmosphere. (Please see chart.)⁵⁸

In the 2007 Report the IPCC wrote, “Water vapour is the most abundant and important greenhouse gas in the atmosphere. However, human activities have only a small direct influence on the amount of atmospheric water vapour.”⁵⁹

It is essentially impossible to determine the impact of 4 percent if you have very limited knowledge about 95 percent.

The IPCC tried to downplay the role of water vapor in affecting global temperatures by amplifying the role of CO₂ and CH₄. The range of numbers used to determine greenhouse effectiveness or Global Warming Potential (GWP) suggested people were just creating numbers—their formula was not scientific. The IPCC notes,

The Global Warming Potential (GWP) is defined as the time-integrated RF (radio frequency) due to a pulse emission of a given component, relative to a pulse emission of an equal

mass of CO₂. The GWP was presented in the First IPCC Assessment (Houghton et al., 1990), stating “It must be stressed that there is no universally accepted methodology for combining all the relevant factors into a single global warming potential for greenhouse gas emissions.” This is where the first deception begins. There are three gases that account for 99.9 percent of the GHG. They are water vapour (H₂O), carbon dioxide (CO₂), and methane (CH₄). The most important and most abundant by far, is water vapour at 95+ percent, while CO₂ is approximately 4 percent and methane less than 0.01 percent.

The question is who are the small group of elitists and how did the focus on CO₂ evolve from their objectives? They are members of the Club of Rome (COR) founded in 1968 and they promoted an agenda for global government. We need to show how CO₂ became pivotal to the scientific support and justification for their actions.

I mentioned Thomas Malthus and his book *An Essay on the Principle of Population* earlier. Now I need to explain how his work became the basis for establishing a socialist, one world, anti-Christian government.

Malthus was a political economist concerned about what he saw as the decline of living conditions in nineteenth century England. He blamed the decline on three elements: the overproduction of young, the inability of resources to keep up with the rising human population, and the irresponsibility of the lower classes. To combat this, Malthus suggested the family size of the lower class ought to be regulated such that poor families do not produce more children than they can support.

It wasn't the first time population and "carrying capacity" were linked, but this connection was different because it advocated government policy and control of population numbers. Charles Darwin was one of the strongest advocates of Malthus and took a copy of Malthus's book on his famous voyage. Malthus's theory would be instrumental in formulating Darwin's evolutionary theory. In his autobiography Darwin wrote,

In October 1838, that is, fifteen months after I had begun my systematic inquiry, I happened to read for amusement Malthus on Population, and being well prepared to appreciate the struggle for existence which everywhere goes on from long-continued observation of the habits of animals and plants, it at once struck me that under these circumstances favourable variations would tend to be preserved, and unfavourable ones to be destroyed. The results of this would be the formation of a new species. Here, then I had at last got a theory by which to work.

The Club of Rome became Neo-Malthusians by taking Darwin's basic premise and expanding it to the claim that population would outgrow all resources. This identified two problems, limited resources and too many people. The Club brought focus on these with three books. One was Paul Ehrlich's *The Population Bomb* in 1968, which immediately became central to the environmental movement's focus that people were the problem.

The second book, *Limits to Growth*, appeared in 1972. It was a grossly simplistic study commissioned by the Club. It was the first to use computer models as scientific forecasters to

justify public policy. They took current trends of resource use, and with a simple trend analysis, projected that forward against the then known estimates of the amount of resources. The third book was published in 1977, *Ecoscience Population, Resources, Environment*. It was co-authored by Holdren and Ehrlich and combined and concentrated the ideas of the first two books.

At that time, Holdren expressed truly frightening views about overpopulation. These included the following:

Women could be forced to abort their pregnancies, whether they wanted to or not.

The population at large could be sterilized by infertility drugs intentionally put into the nation's drinking water or in food.

Single mothers and teen mothers should have their babies seized from them against their will and given away to other couples to raise.

People who "contribute to social deterioration" (i.e., undesirables) "can be required by law to exercise reproductive responsibility"—in other words, be compelled to have abortions or be sterilized.

A transnational "Planetary Regime" should assume control of the global economy and also dictate the most intimate details of Americans' lives—using an armed international police force.

The question is how could such policies be implemented in the supposed liberties of democracy guaranteed in the United States? Holdren explained, in a format that emulates the technique used by all socialists regardless of the issue, create a false problem that justifies normally unacceptable actions as

a resolution. “Indeed, it has been concluded that compulsory population-control laws, even including laws requiring compulsory abortion, could be sustained under the existing Constitution if the population crisis became sufficiently severe to endanger the society.”⁶⁰

The key to understanding what he is proposing is that he is the unseen person who has concluded that laws could be sustained. Then, he is the one who determines when the crisis is endangering society.

The Club of Rome (COR) then added a rider to the original Malthusian claim by arguing that all nations were growing in population and their exploitation of resources, but developed, industrialized nations were doing it at a much greater rate. It was necessary to slow them down. Maurice Strong, a member of the COR, expressed the idea obliquely to Elaine Dewar in her book *Cloak of Green* when he is quoted as saying,

What if a small group of these world leaders were to conclude the principal risk to the earth comes from the actions of the rich countries? In order to save the planet, the group decides: Isn't the only hope for the planet that the industrialized civilizations collapse? Isn't it our responsibility to bring this about?⁶¹

How do you collapse the industrialized civilizations? They were built on fossil fuels, so if you cut off their supply, the engine of development would stall. Politically, that was an impossible objective, but you can also stop an engine by

⁶⁰ Andrew Curtis, *1984 Redux: Say Hello to "Big Brother,"* (Bloomington, IN: Author House, 20110), 281.

⁶¹ <http://mediamatters.org/blog/2010/05/13/beck-pushes-scary-conspiracy-theories-about-eli/164655>.

blocking the exhaust. If you could show that the by-product of those industrialized engines, CO₂, was causing runaway global warming, you could achieve the goal. Dewar then challenged Strong to explain how he would do this as a politician.

Strong said he was going to do it through the UN because, “He could raise his own money from whomever he liked, appoint anyone he wanted, and control the agenda.”⁶²

As Dewar explained after spending several days with Strong at the UN, “Strong was using the UN as a platform to sell a global environment crisis and the Global Governance Agenda.”

So CO₂ became the demon gas that was causing population increase and development, both threatening the future of the planet. Strong set up a two-pronged system to control the agenda. The first was the political side that culminated in Agenda 21; the second was the United Nations Framework Convention of Climate Change (UNFCCC) that gave the very narrow definition of climate change as only those caused by humans to the Intergovernmental Panel on Climate Change (IPCC). All this came together at the Rio 1992 conference that Strong organized as chair of the United Nations Environment Program (UNEP), a division he created. Part of the Declaration from that conference says,

There is also general agreement that unsustainable consumption and production patterns are contributing to the unsustainable use of natural resources and environmental degradation as well as to the reinforcement of social inequities and of poverty with the above-mentioned consequences for demographic parameters.

⁶² Elaine Dewar, *Cloak of Green: The Links between Key Environmental Groups, Government and Big Business*, (Toronto, ON; Lorimer, 1995).

So CO2 became the focus of their anti-Christian socialist agenda, which believes people are an aberration, not children of God. This anti-humanity theme underlies environmentalism and is expressed in various comments.

In a 1990 Greenpeace Report on Global Warming, The author notes, “Carbon dioxide is added to the atmosphere, naturally and unnaturally.” The unnatural refers to the human contribution, so if what we do is unnatural then, by default, we are unnatural. German philosopher Goethe dealt with this inanity when he said, “The unnatural—that too is natural.”

David Graber, a research biologist with the US National Park Service, said,

Human happiness, and certainly human fecundity, are not as important as a wild and healthy planet. I know social scientists who remind me that people are part of nature, but it isn't true. Somewhere along the line—at about a billion years ago—we quit the contract and became a cancer. We have become a plague upon ourselves and upon the earth. It is cosmically unlikely that the developed world will choose to end its orgy of fossil energy consumption, and the Third World its suicidal consumption of landscape. Until such time as Homo Sapiens should decide to rejoin nature, some of us can only hope for the right virus to come along.

Likely this is where Prince Philip, grand central figure to the Illuminati, got his idea.

In 1988, Britain's Prince Philip expressed the wish that, should he be reincarnated, he would want to be a deadly virus that would reduce world population.

Ingrid Newkirk of People for the Ethical Treatment of Animals (PETA) said,

Mankind is a cancer; we're the biggest blight on the face of the earth. If you haven't given voluntary human extinction much thought before, the idea of a world with no people in it may seem strange. But if you give it a chance, I think you might agree that the extinction of Homo Sapiens would mean survival for millions if not billions, of earth-dwelling species. Phasing out the human race will solve every problem on earth, social and environmental.⁶³

Writing in *Audubon*, Richard Connif, an American non-fiction writer specializing in human and animal behavior, wrote, "Among environmentalists sharing two or three beers, the notion is quite common that if only some calamity could wipe out the entire human race, other species might once again have a chance." Think of the insanity of the depopulation proponents who want to wipe out a majority of the population, and yet they too have families. It reeks of the idea that they feel they and their families are exempt from this culling. It begs the question—who gets to decide who lives and who dies? But then who can get in the mind of a megalomaniac to figure out their bizarre twisted thoughts?

Consider the Canadian environmentalist David Suzuki and his bizarre comments in a 1992 keynote address to the Environmental Grantmakers Association, "Economics is a very species-chauvinistic idea. No other species on earth—and there are may be 30 million of them—has had the nerve to put forth a concept called economics, in which one species, us, declares

⁶³ *Reader's Digest*, June, 1990.

the right to put value on everything else on earth, in the living and nonliving world.”

He is incorrect. All other species assign one value to everything else. It is food or it is not food. Humans put a very wide range of values on everything; indeed, the differences between humans and all other animals is so great that Darwin’s contemporary, Alfred Russell Wallace, said these differences alone invalidate Darwin’s evolutionary theory. Suzuki also has the number of species wrong. Thirty million is a gross underestimate. A study by PLoS Biology says, “. . . A staggering 86 percent of all species on land and 91 percent of those in the seas have yet to be discovered, described, and catalogued.”⁶⁴

Of course no other species has the ability to develop concepts like economics. Lack of accurate data and misinterpretation of mechanisms allow the misapplication of the role and function of CO₂. While adding carbon dioxide to the atmosphere causes far less warming than previously feared, it has a positive effect on plant life. With more carbon dioxide in the air, plants grow better in warmer and cooler temperatures and wetter and drier soils, make better use of soil nutrients, and resist diseases and pests better, increasing their fruit production, expanding their range, and greening the earth. This makes more food available to all other creatures, especially—as agricultural yields rise—making food more affordable for the world’s poor. This is ironically the exact opposite of the views expressed by the people we have introduced you to in this book. Green energy projects, such as substituting wind, solar, and other low-density energy sources for coal, oil, and natural gas therefore hurt the poor not only by raising energy (and all other) prices but also by reducing

⁶⁴ <http://www.sciencedaily.com/releases/2011/08/110823180459.htm>.

food production. These energy projects also hurt the rest of life on earth by depriving it of the fertilizing effect of heightened carbon dioxide.

Truly, “The heavens declare the glory of God; and the firmament proclaims his handiwork” (Ps. 19:1). Carbon dioxide, on which life depends, beautifully reveals the Creator’s wisdom and care for all of His creation—people, animals, plants, and the earth itself. The fact that God’s own handiwork is demonized as harmful instead of deemed essential to life, illustrates the corruption of science to push an anti-human, anti-Christian agenda. But for what purpose, you ask? Why? Simply put, the anti-Christian Technocracy wants a New World Order. Chapter 1 discussed the history and evolution of this objective. It has generally failed through political systems such as National Socialism in Germany and communism in the Soviet Union and elsewhere. Environmentalism and global warming provided the next vehicle for achieving the objective.

Pandemic Lies, Masks and Covid 19 Testing

There was NEVER a Pandemic in 2020 and This is Why: Proof 1

- Per Genevieve Briand, of Johns Hopkins University: These are the facts from CDC data analyzed in a graph from February 2020 to September 2020:
- After looking at **total number of deaths in the United States including Covid 19 deaths in 2020**, “she concluded that the number of deaths by COVID-19 is not alarming. In fact, it has relatively no effect on deaths in the United States (**TRANSLATION: NO PANDEMIC in 2020**).”
- She also concluded that increase in all deaths is seasonal and also that “that the COVID-19 death toll is misleading. Briand believes that deaths due to heart diseases, respiratory diseases, influenza and pneumonia may instead be re-categorized as being due to COVID-19. Even patients dying from other underlying diseases but are infected with COVID-19 count as COVID-19 deaths.” The CDC classified all deaths that are related to COVID-19 simply as COVID-19 deaths.”

There was NEVER a Pandemic in 2020 and This is Why: Proof 2

- **LIES:** Imperial College's modeler and Bill Gates minion Neil Ferguson (funded by Bill and Melinda Gates Foundation) **LIED** in his Covid 19 models. "As Ferguson's team wrote on March 26, 2020: "Our estimated impact of an unmitigated scenario in the UK and the USA for a reproduction number, R_0 , of 2.4 (490,000 deaths and 2,180,000 deaths respectively)." Meaning mortality rate of 2.4% through Covid 19. This FRAUDULENT model was adopted by the U.S, the UK and by the Swedish governments with disastrous effects through lockdowns, masks, economic meltdown of economies and a complete and utter SUCCESSFUL fear mongering campaign that continues to this day. Birx and Fauci took Ferguson's model and gas lighted Trump for 4 hours in the Oval Office and at the end of the 4 hours, Trump was prepped by the globalists to declare an EMERGENCY MEDICAL MARTIAL LAW that still stands today.
- **TRUTH:** As Genevieve Briand in the last slide pointed out: there was no cause for alarm as there was HARDLY any increase in TOTAL DEATHS in the United States WITH Covid 19. **TRANSLATION: NO PANDEMIC in 2020.**

Pandemic Lies: Remdesivir, Ventilators, and Asymptomatic Transmission

- **Lies:** Remdesivir and Ventilators save lives and CURES Covid 19.
- **Truth:** Remdesivir is a hepato (liver) and nephro (kidneys) toxic anti viral drug made by Gilead Sciences and Fauci was/is their pimp. People were dying from lack of oxygen called hypoxia in the hospitals and instead of administering oxygen they were asphyxiated with ventilators.
- **Lies:** Asymptomatic transmission of SARS COV 2 causing Covid 19 from person to person.
- **Truth:** There is NO SARS COV 2 virus which has been isolated, hence there is no asymptomatic transmission of anything. By definition, asymptomatic means free of disease and symptoms, so logically you house NO VIRUS in your body. Per the *British Medical Journal* (BMJ): "A city-wide prevalence study of almost 10 million people in Wuhan found no evidence of asymptomatic transmission."

More Pandemic Lies: Masks Prevent Transmission of Covid 19

- **Lies:** Masks prevent transmission of Covid 19.
- **Truth:** Per the CDC, mainstream media, FDA, the worldwide academic establishment and the National Institute of Virology in Pune, India, the SARS COV 2 virus is between 70 to 80 nanometers in size. Pore sizes in masks are as follows: surgical mask pore sizes are 0.3 micrometers (300 nanometers) to 10 micrometers (10,000 nanometers), and the N95 mask pore sizes are 0.1 micrometers (100 nanometers) to 0.3 micrometers (300 nanometers). So this **DECISIVELY** proves that all masks; surgical, cloth and N95 masks are not just useless in preventing transmission, but exceptionally toxic to health (as we will see in the next slide).

The Delusion of Face Diapers: AKA Masks

“Pandemic of Testing”: The Different Tests for Detecting Covid 19:

- **The rapid PCR test:** Detects a current Covid infection via nasal swab. Detects genetic material belonging to the SARS-CoV-2 virus. Results are processed onsite and are delivered the same day. Usually home tests.
- **The RT-PCR test:** Referred to as a ‘molecular’ test. This test is administered via nasal, saliva or throat swab. Is considered the gold standard of Covid tests and is highly accurate. Available in a few days as it is sent to a lab for processing.
- **Antigen test:** Detects certain proteins on the surface of the virus. Collected as throat or nasal swab. Is a “rapid test” and results are available in 15 minutes and is highly inaccurate. Usually home tests.
- **Antibody test:** Blood test. Looks for antibodies in response to Covid 19 infection. Sent to a lab or can be processed on site. Is used to detect past infection or exposure to Covid 19. Not used to detect current infection.

The RT-PCR: Diagnostic Test or Amplification Technique?

- **History of PCR:** The Polymerase Chain Reaction (PCR) technique, invented in 1985 by Kary B. Mullis, allowed scientists to make billions of copies of a scarce sample of DNA (Deoxyribonucleic acid). RT-PCR uses the principle of converting the RNA template to a complementary DNA (cDNA) using the reverse transcriptase enzyme. This cDNA then undergoes exponential amplification using PCR to form multiple copies, which are then used for downstream analysis. This technique is called RT-PCR and is currently being FRAUDULENTLY used to diagnose Covid 19.
- SARS COV 2 is a an RNA based Corona Virus, hence the RT-PCR technique is used.
- Source:<https://www.excedr.com/resources/the-basics-of-reverse-transcription-pcr-rt-pcr/#:~:text=RT-PCR%20stands%20for%20reverse%20transcription%20PCR%2C%20not%20real-time,is%20then%20converted%20to%20double-stranded%20cDNA%20and%20amplified.>

How Does PCR Work?

- To amplify a segment of DNA using PCR, the sample is first heated so the DNA denatures, or separates into two pieces of single-stranded DNA. Next, an enzyme called "Taq polymerase" synthesizes - builds - two new strands of DNA, using the original strands as templates. This process results in the duplication of the original DNA, with each of the new molecules containing one old and one new strand of DNA. Then each of these strands can be used to create two new copies, and so on, and so on. The cycle of denaturing and synthesizing new DNA is repeated as many as 30 or 40 times, leading to more than one billion exact copies of the original DNA segment.

The entire cycling process of PCR is automated and can be completed in just a few hours. It is directed by a machine called a thermocycler, which is programmed to alter the temperature of the reaction every few minutes to allow DNA denaturing and synthesis.

Problems with Using RT-PCR as a Diagnostic Test:

- Wuhan scientists found a SMALL RNA sequence of 40 to 50 base pairs in the lung aspirate of one patient and used that as a TEMPLATE for the In Silico computer viral genome. Please remember, NO VIRUS was ISOLATED or PURIFIED, hence not found. Hence, very high likelihood that the RNA strand found was HUMAN and NOT of viral origin. I say this because when the body is sick, there is constant cell breakdown and in doing so, damaged DNA and RNA are released due to this cellular breakdown into the different parts of the body, including in the lung tissue where this RNA strand was found.
- The RT-PCR tests for this RNA sequence not the actual virus. This RNA sequence was of human and NOT of viral origin, hence one of the reasons for all the FALSE positives.
- To make matters worse, Drosten and Corman designed the RT-PCR BEFORE the actual SARS COV 2 viral genomic sequence was released publicly.

Problems with using RT-PCR as a Diagnostic Test: Continued

- No Gold Standard comparison for RT-PCR, meaning that since virus was never isolated or purified and consequently sequenced, the RT-PCR could not be compared to a virus, just to an RNA sequence. Gold standard would be the entire genome of isolated purified virus.
- No controls were used. Meaning, you have to have healthy and sick people to complete the experiment. Run RT-PCR on the sick and compare those results to the healthy subjects and consequently find the error rates of false positives on the RT-PCR.
- Very high threshold cycles at upper limits of 45 and sometimes higher were used in the RT-PCR leading to amplification of anything and everything within the sample. An ideal threshold cycle limit should be between 25 to 30.

Problems with using RT-PCR as a Diagnostic Test: Continued

- 40+ threshold cycles on the RT-PCR were causing 97% false positives and giving only 3% accurate results. A Portuguese court found the RT-PCR test to be completely unreliable and unlawful.
- Source: <https://greatgameindia.com/portuguese-court-pcr-tests-unreliable/>
- WHO also admits that the RT-PCR was returning very high false positive results <https://www.theburningplatform.com/2020/12/19/who-finally-admits-pcr-tests-create-false-positives/>
- **In Conclusion:** RT-PCR is an amplification technique NOT a diagnostic test and hence should NOT be used as one.

What was Found on The PCR swab tips?

- The experimental physicist and biomaterial researcher, Dr. Antonietta Gatti examined various PCR test rods under the microscope and analyzed their ingredients. Dr. Gatti is also the coordinator of the Italian Institute of Technology's Project of Nano-eco-toxicology, called INESE. This is what she found:
- 1. The PCR test swabs were found to be made of hard materials and contain a variety of (nano) particles made of silver, aluminum, titanium, glass fibers etc., many of which are undeclared in the package leaflet.
- 2. The Biocomma "cotton" stick from Shenzhen, China, could not be determined whether it was made of carbon or cotton. The dirt in the product consisted of calcium carbonate, stainless steel or silicates.
- 3. A brush-like test stick from Manta, China, had a variety of broken fibers. Carbon, oxygen, silicone, zirconium, sulfur, aluminum, titanium and sodium were found as components of the sample.
- 4. Another swab from Biocomma seemed to consist of fiberglass or at least a coating of fiberglass. Components were carbon, oxygen, aluminum, silicone and titanium. It could not be ruled out that an additional coating consisted of organic materials.

What was Found on The PCR swab tips?

- 5. The tip of the applicator of another test stick – FLOQSwabs[®] – was coated with short nylon[®] fibers arranged vertically. FLOQSwabs[®] have no inner core to enclose the sample.
- 6. In Slovakia, in an unnamed hospital laboratory from Bratislava, another independent lab test was done to determine the material on the PCR swab which determined Darpa patented hydrogel, lithium and nylon.
- 7. If this isn't disturbing enough, the tests also contain ethylene oxide, used as a pesticide in agriculture and causes cancer. These ingredients are not without reason.

Effects of These Deadly Poisons from the PCR Swabs on the Body:

- 1. When swabs enter the mucous membrane, they can cause wounds and inflammation. People have gotten hardened mucous membranes often tested for SARS-CoV-2. No longer intact mucous membranes can no longer fulfill their task of repelling viruses, bacteria and fungi before they reach the airways.
- 2. Zirconium silicate titanium coatings on these swabs makes the swab fiber harder so that it is able to tear the mucous membrane. There is a possibility that the pressure applied to the smear maneuvers may break some fibers that remain in situ. If this is the case, they can cause a foreign body reaction that can damage the mucous membrane in such a way that breathing and speech are hindered.”

Effects of These Deadly Poisons from the PCR Swabs on the Body: Continued

- 3. “The “porcupine” swabs are made of hard fibers. If they scrape on the nasal mucosa, they can damage it, causing a bleeding lesion or, in any case, tissue trauma.
- 4. During the healing process of the mucous membrane, the broken fibers can penetrate the tissue without any possibility of removing them, thus causing the formation of a granuloma or fibrotic tissue, as happens with any foreign body.
- 5. These reductions pose a risk to the health of infants and children. If the tests are necessary, Prof. Gatti says, small and mild smears must be carried out in children.

Effects of These Deadly Poisons from the PCR Swabs on the Body: Continued

- 6. The Slovakia PCR swabs had DARPA patented hydrogel, lithium and nylon fibers. "After spawning a mixture of nylon fiber fragments, Darpa Hydrogel remains on the nasal mucosa under the pituitary and pineal gland along with lithium. This mixture immediately reacts with living structures to form crystals that are directionally oriented to the pineal gland, which has its own electromagnetic field. The shape of the crystals determines the type of hydrogel used. The crystals are conductive due to the lithium contained in it. The crystals can receive the signal from the transmitter to the cell and transmit signals from the cell to the transmitter. These are actually nano-antennas."

Effects of These Deadly Poisons from the PCR Swabs on the Body: Continued

- 7. Lithium is an element that does not occur naturally in humans. It is highly toxic to the pineal gland influence. In low doses it blocks it and in higher doses it can completely destroy it. The pineal gland produces serotonin (a hormone of happiness) and controls human biorhythms. It is crucial for higher brain activity (creativity, foresight, sixth sense, etc.) and for social interactions of man.
- 8. Darpa Hydrogel and lithium block and destroy the pineal gland and cause the thinking person to become a controllable bio-robot. A hydrogel is a carrier of an active substance, its task is to get the substance into the body at a pre-desired place. Additionally it appears the hydrogel is causing blood clots in the blood vessels.

Why did 100+ Countries Order Millions of Dollars Worth of CV 19 Stuff in 2017-2019?

Why are Vitamin C, Quercetin, Zinc, Vitamin D3, NAC effective against CV 19?

- Vitamin C, Quercetin, Zinc, N-Acetyl Cysteine (N-AC) (Amino Acid): Are all antioxidants that neutralize oxidative damage through toxins in the cells. These antioxidants are actually scavengers of free radicals (toxins) that cause cell damage through oxidation.
- Vitamin D3: Is a pro-hormone (not a vitamin) and a multifunctional hormone. It also reduces the inflammation in the body and hence helps the cells heal from inflammatory damage. It helps every system in the body including bones, teeth, cardiovascular and endocrine systems.
- Source on how vitamin D3 might help the body in cases of Covid 19. This paper as usual was retracted: <https://www.nature.com/articles/s41598-021-90189-4>

Is SARS COV 2 the “NOVEL VIRUS” Made in a Lab, is it a BIOWEAPON? Absolutely NOT!

- Dr. Stefan Lanka, a German virologist soundly puts these totally bogus and unfounded claims by saying the following about bio-weapons made in a lab, the same way that Monkeypox is a NOT a new virus, when it is now amply clear that Monkeypox was created as a direct effect of the Covid 19 kill shot we call vaccines. Monkeypox is the body trying to detox itself from the deadly and toxic Covid 19 injections, nothing more.
- To understand why biological weapons in the form of pathogens have never existed in this way and never will, one must know the following:
- With regard to viruses, disease-causing viruses — i.e. a dangerous genetic substance — are, to this day, nothing more than mere theory.
- No scientist in the whole world has ever succeeded in providing tangible proof of such a virus.
- Even if one or the other has ever been awarded the Nobel Prize for alleged proof, their work never stands up to scientific scrutiny.
- Source: <https://truthcomestolight.com/bioweapons-the-myth-of-man-made-pathogens/>

In Conclusion: What Caused People to Get Sick in 2020?

- **What caused the select few who got sick from pneumonia, oxygen deprivation and not being able to breathe, lung scarring etc.? HINT: IT WAS NOT A VIRUS OR SNAKE VENOM PEPTIDES!**
- 1. Fear: Massive fear mongering by the government, academia, big pharma and media
- Highly poisoned and toxic PCR swab tips and tests
- 2. Oxidative stress in body from various toxins in everyday life
- 3. Sleep deprivation on a chronic and cumulative basis
- 4. Co-morbidities such as diabetes, heart disease, cancer etc. and obesity
- 5. Lack of nutrient dense diet, lack of vital vitamins, minerals, anti oxidants and omega 3's
- 6. Contaminated flu vaccines given in late 2019 and early 2020
- 7. 5G and other chronic and pervasive EMF exposure (please read the book Invisible Rainbow by Arthur Firstenberg to get more info on non ionizing radiation and electricity causing Covid like syndromes)
- 8. Massive deluge of childhood and adult vaccines since the early 1990's: 40+ vaccines and increasing exponentially
